## 600mm WIDE WASP BANNER STAND GRAPHIC SPEC @ 100%

TRIM SIZE 600 x 2150 mm H  
(denoted by white area)

SAFE AREA 580 x 1960 mm H  
(starts 40 mm from top edge  
denoted by bcyan area)

ADD 10mm BLEED ALL ROUND  
(denoted by lime green area)

150 mm FROM BASE OF  
TRIMMED GRAPHIC UPWARDS  
WILL NOT BE VISIBLE as it  
remains in the base unit  
(area denoted by red keyline)

### ADDITIONAL NOTES

Ensure all elements use the  
CMYK colour format (no RGB's),  
images are true 300 dpi resolution,  
all fonts are outlined and your  
PDF Print File includes crop marks  
and the document bleed.

Please bleed colours, images and  
all important items past the bottom  
of the cyan blue 'safe area' into the  
**red keyline 'non-visible area'**  
by 25 mm, this ensures there are no  
white or unsightly edges at the base  
of your graphic, unless desired.

content within this  
red keyline area  
remains in base unit
